

INTY TOKEN

White Paper - June 2022

About Us

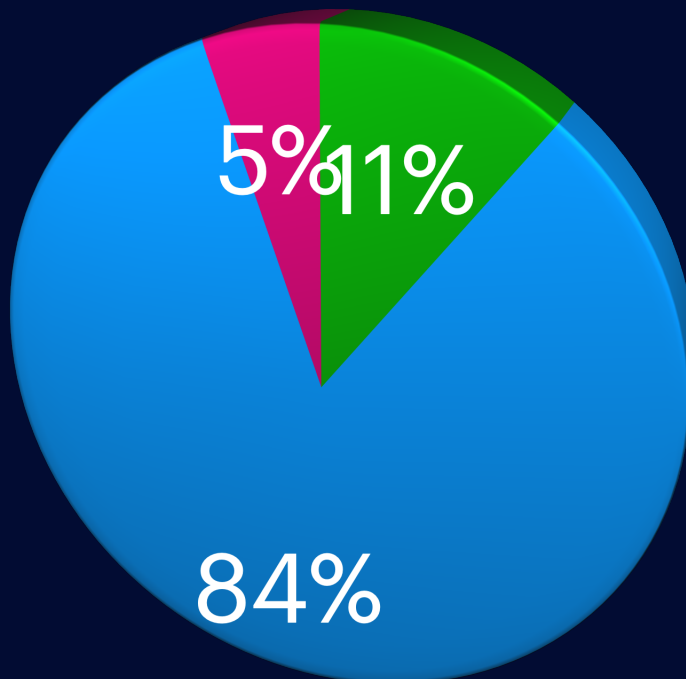

INTY Token is intended to be used in all the transactions that we do daily. Such as, purchases, sales, and exchanges of goods and services. Companies that agree to use our token will see the benefits of the security and speed of blockchain technology. People will have access to the services with just our token no matter where they are in the world.

We will have a wide system of businesses willing to provide services to the community that adopts our token. That way people will not need paper money but with INTY Token they will be able to make their daily payments and there will always be businesses and companies willing to receive such payments in our ecosystem. We will work every day to continue adding more and more businesses to our community in order to satisfy the needs of each person and member of our community.

People will obtain innumerable benefits that will be reflected every day. Sending money or paying for a simple haircut will be easier than ever before. All that and much more is already available to you and we will improve each day to make the future brighter than ever.
